

Hello this is Mr. Henry with a REMINDER call and email from KiBe High School.

~I was just informed that the desktop computers will not be available for Thursday and Friday computer checkout. Our IT department was teaching/training our teaching staff and didn't have the time to prepare the desktop computers to be handed out. I take full responsibility and I do apologize to everyone for the situation.

~Thursday August 27th, from 8:00 a.m. to 4:00 p.m. Junior and Senior families can check out a computer or hot spot. **Technology equipment will be available on an as needed basis, if you have a computer at home please use that until further notice.**

~Friday, August 28th from 8:00 a.m. to 4:00 p.m. Sophomore and Freshman families can check out a computer or hot spot. **Technology equipment will be available on an as needed basis, if you have a computer at home please use that until further notice.**

~If you miss the computer handout days this week and still needs a computer or hot spot. Please still come into school next week and check out a computer or hot spot from the office **as needed.**

Social distancing and the proper wearing of a face mask are REQUIRED to enter the building to check out a computer. You will also have to sign in and be temperature checked and answer COVID questions. Students will stand next to an orange cone in the hallway that wraps around the library. ONLY 5 students can be in the building at one time.

Once again, I do apologize to everyone for the misinformation and please understand it was not purposeful and we as a district are all working hard to be the best that we can for your student.

Have a GREAT rest of your night!
